This was my school.

I come from Tirana, Tirana is a big city in the centre of Albania.

The population of Tirana is 1 million.

The most expensive place to live is Blloki and Tirana e Re.

The cheapest area to live in is Academia.

I lived in Petrel. Building & Construction are the most important industries in Tirana.

There are state primary and secondary school's and a university in Tirana.

I went to a comprehensive school.

In my area there is a supermarket, and some small local shops.

Tirona is the football team in my town.
